

CLINTON IGA COUPON POLICY

Clinton IGA Employees and their Customers are asked to help prevent coupon fraud found on the internet, emails, and social networks by following these guidelines.

- Clinton IGA will only accept legitimate coupons printed from the internet.
- Coupons **CANNOT** exceed the price of the item. We do **NOT** give cash back on coupons.
- One coupon per item. No using a store coupon and manufacturer coupon or 2 manufacturer coupons on the same item.
- Printed coupons for "free" items will not be accepted. But buy-one-get-one free coupons can be accepted. A buy-one-get-one free requires a purchase, where a "free" item does not.
- Coupons for 50 cents or below will be doubled unless otherwise stated on coupon. Tobacco or cigarette coupons will **NOT** be doubled.
- Any printed coupon that looks to be blurry or copied will be rejected.
- All printed coupons must have a barcode and that barcode must scan.
- No out of date/expired coupons will be accepted.
- Coupons must be complete--nothing cut OFF the top or bottom (like expiration dates or Do Not Double).
- Managers at any location have the right to refuse any coupon printed from the internet.
- Customers can verify if they have a legitimate coupon by going to <http://www.veri-fi.com>.
